

Command:

```
return{
  "name": [
    for $x in $v."books"."book"[]
    return $x."name"
  ]
}
```

Screenshot:

The screenshot shows a terminal window with a light gray background. The top section displays a JSON query in a monospaced font with syntax highlighting: 'return{' in purple, '"name": [' in red, 'for \$x in \$v."books"."book"[]' in blue, 'return \$x."name"' in purple, and closing brackets in red. The bottom section shows the execution result, starting with a blue circular icon containing a white person silhouette, followed by the text 'Took: 0.252366304397583 ms' and a JSON array of book titles: '{"name": ["Fifty shades of grey", "The grass is singing", "A short history of nearly everything", "JSON in 24 hours", "Miss Smill'. A horizontal scrollbar is visible at the bottom of the terminal window.

```
return{
  "name": [
    for $x in $v."books"."book"[]
    return $x."name"
  ]
}
```

Took: 0.252366304397583 ms
{"name": ["Fifty shades of grey", "The grass is singing", "A short history of nearly everything", "JSON in 24 hours", "Miss Smill
